

THRIVING Families SAFER Children

A NATIONAL COMMITMENT TO WELL-BEING

Florida Partners have joined together with parents, youth, caregivers, and community organizations and with members across the public, private, and philanthropic sectors to co-create and transform Florida's systems to develop a statewide culture of child, youth and family well-being.

TFSC promotes the health, well-being, and economic success of families; eliminates the widespread practice of family separation; breaks harmful intergenerational cycles of trauma and poverty; and supports transformational change.

NATIONAL PARTNERS

Florida TFSC Vision Statement:

To co-create and transform Florida's systems to develop a statewide culture of child, youth and family well-being.

Florida TFSC Priorities:

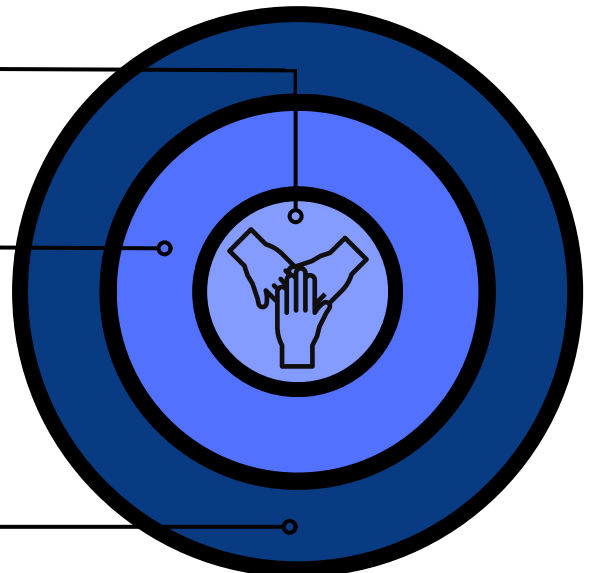

1. Support and strengthen families through community engagement and increased awareness.
2. Establish a foundation for the integration of child and family well-being into the various state systems that address education, health, safety, and economic and housing stability.
3. Promote the formation of Youth and Parent Advisory Councils in each jurisdiction across the state of Florida.

FAMILY & COMMUNITY are at the center of transformational change

SUPPORT for TFSC jurisdictions to establish child and family well-being systems

FLORIDA TFSC CORE VALUES

- We believe people who have been impacted by the system(s) have critical contextual insight into the problems, cultures, and solutions; therefore, we will co-create, partner, acknowledge and share power with them in all aspects & phases of the work, decisions and provide equitable compensation and other support as needed/appropriate.
- We believe in truth-telling and courageous conversations; therefore, we will hold space to acknowledge harm, embrace other perspectives, and partner together for shared accountability to prevent further harm.
- We believe in the importance of data and information to inform and drive solutions; therefore, we will seek and share information to drive solutions that matter to communities.
- We believe all families and communities have value and unique culture; therefore, we are committed to addressing stigma, practicing humility, active listening, and continuous learning from each other.
- We believe all families have needs and strengths and communities are the source of support; therefore, we will invest in authentic relationships to increase well-being so that families can thrive, and families have what they need when they need it.

OPPORTUNITIES

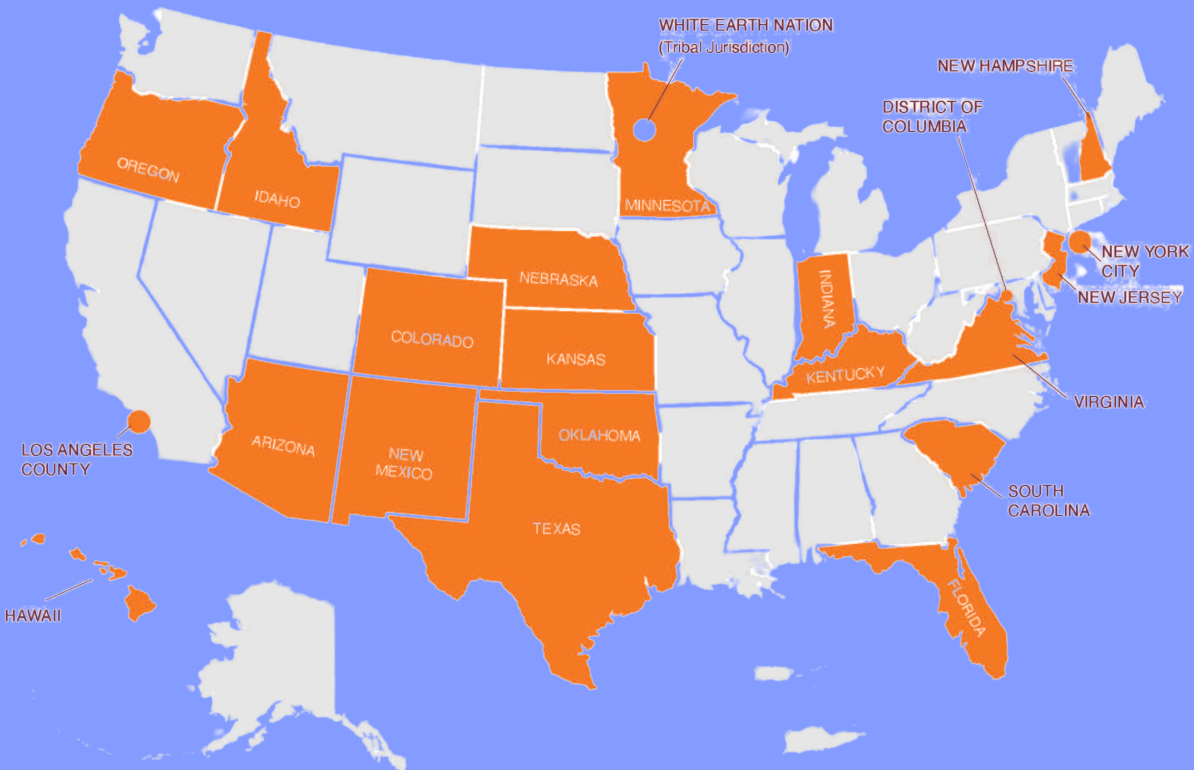

- CO-CREATE AND CO-DESIGN A NEW PATH FORWARD WITH AND FOR FLORIDA'S FAMILIES
 - PARTICIPATE IN NATIONAL MONTHLY LEARNING SESSIONS
 - CREATE ACCESS TO STATE AND NATIONAL RESOURCES ON BASECAMP
 - UTILIZE SUPPORT AND LINKAGES TO NATIONAL SITE LIAISONS
 - RECEIVE DIRECT SUPPORT FROM CONVENERS AND ACTION TEAM LEADERS
